THE FOX PHD
INTERDISCIPLINARY STUDIES
PROGRAM OVERVIEW

Businesses operating in today’s globally competitive and rapidly shifting technological environment are increasingly utilizing multi-disciplinary problem-solving approaches.

With the Interdisciplinary Studies (IDS) concentration, the Fox School of Business leads a growing movement toward interdisciplinary research. Outstanding students who seek in-depth preparation that spans multiple functional areas of business, or breadth of knowledge beyond established programs of study, may be interested in the IDS concentration.

The Fox IDS faculty consists of internationally recognized academic leaders who possess backgrounds in accounting, finance, international business, information systems, marketing, neuroscience, statistics, and strategic management. Because Interdisciplinary Studies students orient themselves between departments, the program requires each student to identify a primary faculty mentor. This mentor’s role is to ensure desirable student development as measured by paper presentations at top conferences, publication in relevant academic journals and, ultimately, placements in research universities. Students from the IDS concentration typically seek mentorship from the most prestigious researchers within the Fox School, and, accordingly, are typically of the highest caliber among our accepted applicant pool.

FINANCIAL AID

All students admitted to our program are considered for full financial support for up to five years. Funding typically comes in the form of an assistantship and includes full tuition and a competitive stipend, based on adequate progress and yearly evaluations. Students who apply before the January 15 deadline will also be considered for Temple’s prestigious university fellowships.
