WHEN YOU CHOSE FOX, YOU OUTPERFORMED THE COMPETITION.

"WHEN YOU CHOSE FOX, YOU MADE AN INVESTMENT.
And our mission is to make that investment continue to appreciate in value." — Moshe Porat, Dean

THE FOX SCHOOL prepares PhD graduates to lead their fields of academic research. This commitment to interdisciplinary education prepares graduates from all concentrations to tackle problems at the cutting edge of business and management research.
Fox PhD graduates enjoy a 100% JOB PLACEMENT at research universities or in leading industry positions.

Recent incoming cohorts of PhD students have included undergraduates or master program graduates from TOP BUSINESS INSTITUTIONS AND NOTABLE EMPLOYERS, such as Duke and Cornell, Goldman Sachs, and the United States Military Academy at West Point.

Fox houses one of the HIGHEST PERCENTAGES OF PRESIDENTIAL FELLOWSHIP RECIPIENTS of Temple University.

Fox School students have superb technology and resources in ONE OF THE LARGEST URBAN UNIVERSITIES in the Northeast.

Since 2014, Fox researchers have brought in sponsored research opportunities totaling OVER $6 MILLION.

“Fox was instrumental in providing knowledgeable faculty to help train me and my fellow colleagues, inviting guest speakers to come talk about their cutting-edge research with us, and funding travel to top conferences to present my work.”

—Michelle Andrews, PhD ’15

Andrews accepted a position as tenure-track Assistant Professor of Marketing at Emory University’s Goizueta Business School.

Gordon Burtch has been using the research skills he developed at Fox to change the way society understands crowd-funding. Ever since he was a PhD student at Fox, he had publications in top journals, such as Management Science. Burtch believes the faculty mentorship played an instrumental role in getting him where he is today.

“I attribute much of my success to the broad curriculum I was exposed to at the Fox School. Through offering a wide array of courses and opportunities to engage in hands-on research, Fox enabled me to tackle research questions from multiple theoretical perspectives, employing a deep analytical toolset.”

—Gordon Burtch, PhD ’13

Burtch is Assistant Professor of Information and Decision Sciences at the University of Minnesota’s Carlson School of Management.
